

Interpretive Activities Inventory

Identify the interpretive activities your museum or historic site has offered in the last three years. Include the title or a short description to provide more details. If there are two or more distinct activities in the same category (e.g., guided tours for the public, connoisseur tours for collectors), identify them separately (e.g., 1A, 1B). Do not include activities that are primarily for promotion or raising funds.

Check all that apply.
